DMG Styling and Build

Use this script to build a styled DMG window with:

- Custom background art.
- App icon + Applications alias placement.
- Finder icon-view layout presets.

Command

```
scripts/create_dmg.sh build/Release/Pault.app dist/Pault.dmg "Pault"
```

Inputs

- App bundle: path to Pault.app.
- Output DMG path.
- Optional volume name (defaults to Pault).

Assets

- DMG background image: scripts/dmg/dmg-background.png
