# Landing Page Content

## Hero

Headline:

Your Prompt Library, Ready in a Keystroke

Subheadline:

Pault keeps your best prompts organized locally on your Mac, then brings them back instantly from the menu bar or a global hotkey.

Primary CTA:

Download for macOS

Secondary CTA:

View Features

Hero image:

## Social Proof Strip

Built for builders, writers, and teams that reuse prompts every day.

## Core Value Section

Section headline:

From scattered snippets to a reliable prompt system

Body:

Stop digging through notes, chats, and docs. Pault gives you one focused place to store, search, and run prompts that actually work.

## Feature Cards

### 1. Organize with intention

Keep prompts structured with tags, favorites, and archive views.

### 2. Launch from anywhere

Open Pault from the menu bar or use a global hotkey for instant access.

### 3. Paste with one action

Copy or paste prompt content directly into your active app.

Feature image:

## How It Works

### 1. Capture

Save prompts as soon as they prove useful.

### 2. Refine

Edit and improve in a distraction-light workspace.

### 3. Reuse

Find the right prompt fast and run it where you need it.

## Privacy Section

Headline:

Local-first by default

Body:

Your library is stored on your Mac. Pault is designed for private workflows and user-controlled data.

## Final CTA

Headline:

Build your prompt operating system

Body:

Install Pault and turn repeated prompt work into a fast, reusable workflow.

Button:
